

# Disney SECRET of the WINGS

## YOU WILL NEED:

- Stretch jewelry cord or twine
- Assortment of beads
- Letter beads for names
- Charms (optional)
- Scissors

## DIRECTIONS:

Ask an adult to help you with this activity

Wrap stretch cord or twine around your wrist (have an adult help) – cut the cord 2 inches longer than the length of your wrist.

Thread one large bead onto the jewelry cord and slide it to one end. Tie a knot around the bead, connecting it permanently to the jewelry cord. This will later serve as a connection hook.

Thread beads onto the open end of the jewelry cord. Leave an inch of space at the end of the cord when finished. Spell the name of your friend with the letter beads and fill in the rest of the length with assorted beads. Make different combinations of beads and charms to make a unique bracelet.

## FRIENDSHIP BRACELETS

Let your friends know how much you care by making them a customized friendship bracelet.

Once you've threaded all your beads to make the bracelet, make a loop at the end of the jewelry cord and tie into a loose knot. Slide down so that the knot is touching the bead and there are no gaps between the beads. This will keep the beads from sliding off the end when beading the bracelet and also serve as a clasp.

Then tighten the knot. \*\*You may need an adult or friend to help you with this.

Trim extra stretch cord or twine.

Present to your friend and place the bracelet on their wrist, then attach the looped end over the large bead.
